

Task-1 Map — Overview

Full-map overview — tile layout reference

Assemble order

Top row (north): tiles 1 – 4, left to right.

Bottom row (south): tiles 5 – 8, left to right.

Align the corner crosses on adjacent tiles and tape on the back.

Task-1 Map — Print & Assemble Guide

1. Print the 8 map tiles (PDF pages 4–11)

Print PDF pages 4–11 on A4 at 100% / Actual Size. Do NOT use “fit to page”.

Verify the scale bar (X 80 mm / Y 40 mm) with a ruler before assembling.

2. Assemble (4 columns x 2 rows) — see the overview on PDF page 1

Top row (north) = tiles 1–4 left to right; bottom row (south) = tiles 5–8 left to right.

Align the corner crosses on adjacent tiles; tape on the back.

3. Orientation

The N arrow points map-north (up). Tags are printed with ID upright facing north.

4. AprilTag landmarks (the printed squares)

32 AprilTags (family 36h11, 20 mm) are printed onto the map as absolute-position landmarks.

Each is labelled “ID n (N ↑)” (yaw = 0 = facing map-north).

5. Scale

Map 840 x 588 mm = original 1000 x 700 mm Task-1 map scaled 0.84.

Route black line 20 mm; AprilTags 20 mm (physical sizes unchanged).

AprilTag Coordinates

X and Y are in millimetres from the map's SOUTH-WEST corner (X east, Y north); NE corner = (840, 588). cm = mm ÷ 10.
